screenshot:

A screenshot of a web browser window displaying a 'New Task' form. The browser's address bar shows 'localhost'. The form is divided into several sections with blue headers: 'New Task', 'Describe your task to Experts', 'Setting up your Task', and 'Suggest how much'. Under 'New Task', 'Select Task Type:' has 'In person' selected with a blue radio button, and 'Online' is unselected. The 'Describe your task to Experts' section has 'Task Title' and 'Description' both set to 'demo'. The 'Setting up your Task' section has 'Suburb' set to 'demo' and 'Date' set to '8/10/2021'. The 'Suggest how much' section has 'What is your budget?' with '(This is an estimate)' below it. 'Total' is selected with a blue radio button, and 'Hourly rate' is unselected. A text input field contains the number '100'. A 'Post Task' button is located at the bottom right of the form.

A second screenshot of the same 'New Task' form, but with 'Online' selected under 'Select Task Type:'. The 'In person' radio button is now unselected, and the 'Online' radio button is selected with a blue dot. All other fields, including 'Task Title', 'Description', 'Suburb', 'Date', and the budget input, remain the same as in the first screenshot. The 'Post Task' button is still present at the bottom right.
